**TRY AGAIN**

# # **Smartboard Lesson Planning**

## **Today's Lesson Idea:**

4 corner sorting

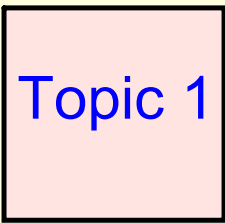

## **Today's Smartboard Tip:**

Inserting Pages and Page Length

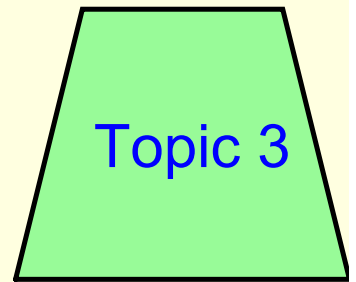

## **Today's Tutorial:**

Clone a page

Sort the items into the correct corner.

item

item

item

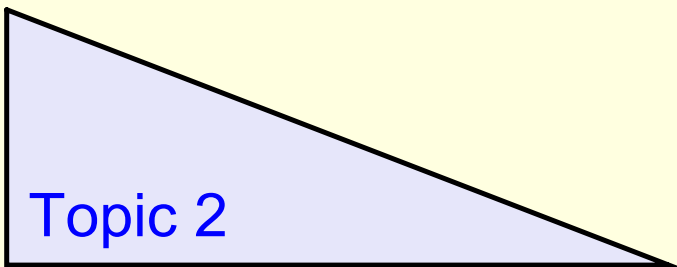

item

item

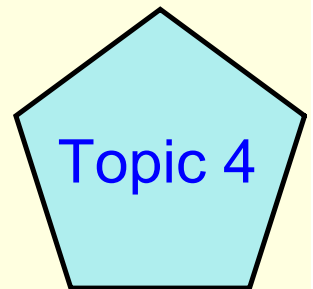

item

item

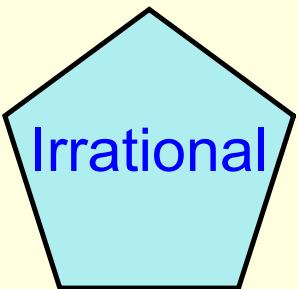

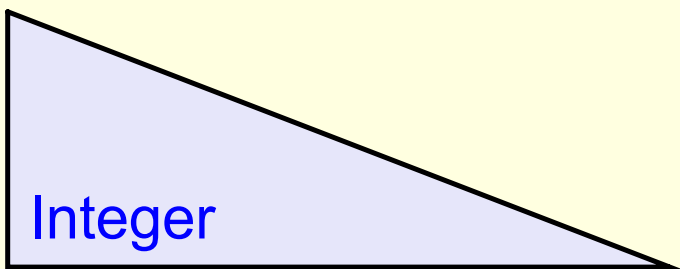

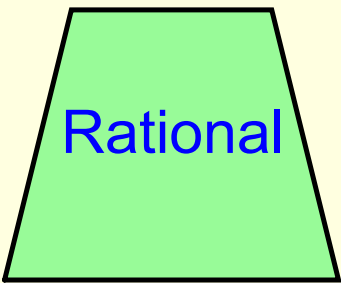

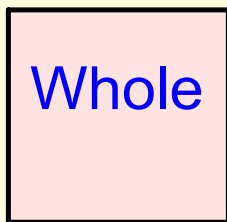

item

item

Sort the items into the BEST corner.

1

0

567

$\sqrt{16}$

-2

.5

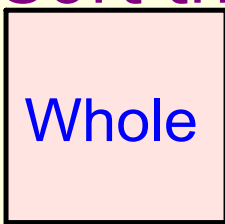

$\sqrt{5}$

-123

$\pi$

$\frac{3}{4}$

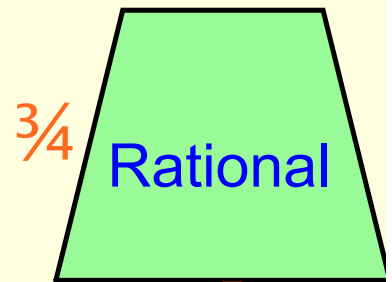

Sort the items into the BEST corner.

0

1

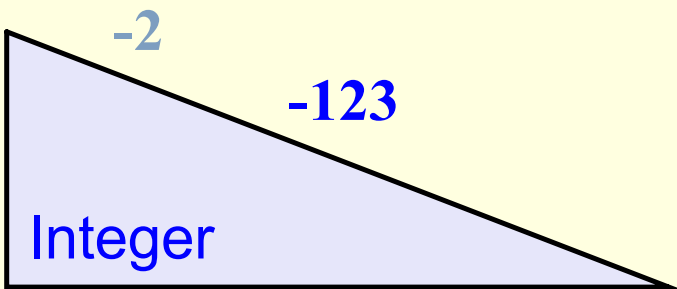

$\sqrt{16}$  567

$\frac{3}{4}$

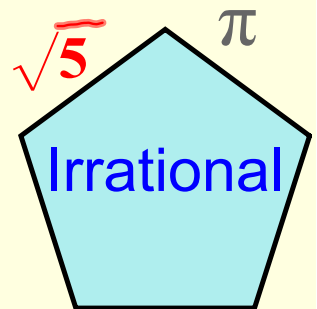

.5

Key

-2

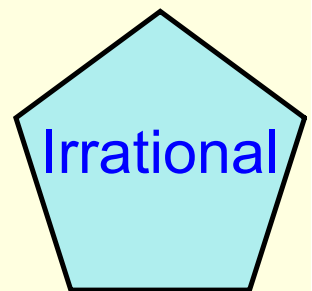

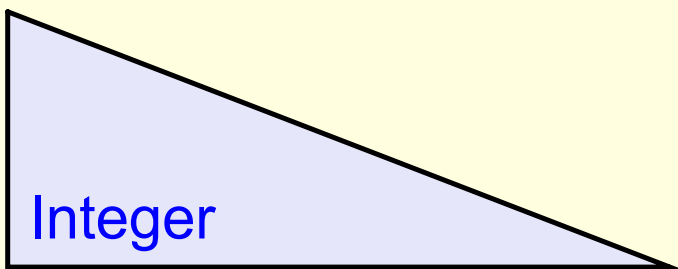

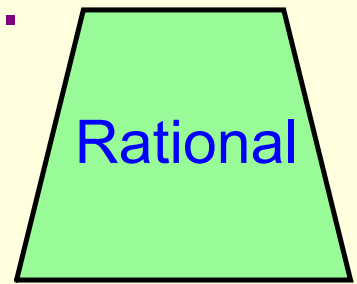

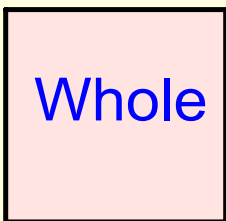

-123

$\sqrt{5}$

$\pi$

With your partner find 3 different numbers for each corner.

With your partner define what a whole, integer, rational and irrational number is.
