Teaching with SMARTBoard

Today's Lesson Idea:

Characteristic Sorting

Today's Smartboard Tip:

Infinite Cloning

Today's Tutorial:

Using the screen capture in a lesson

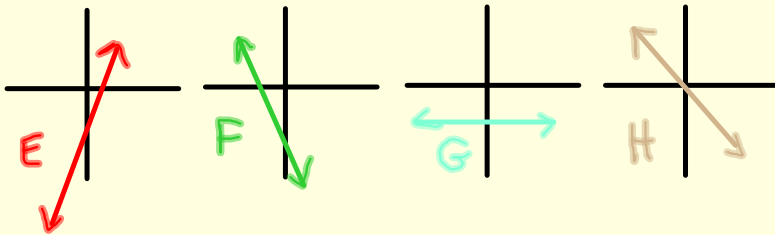

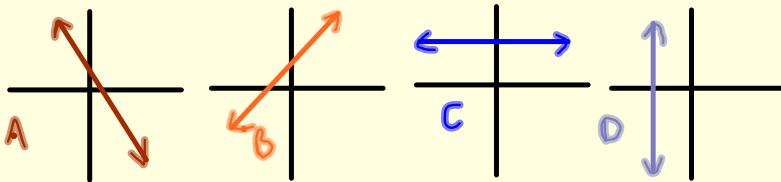

Find 3 or more items with the same characteristic.

Drag them to this space

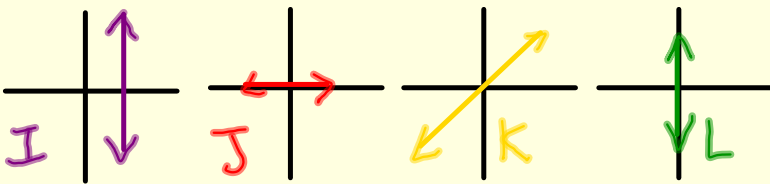

Name the characteristic

Find 3 or more items with the same characteristic.

Drag them to this space

Name the characteristic

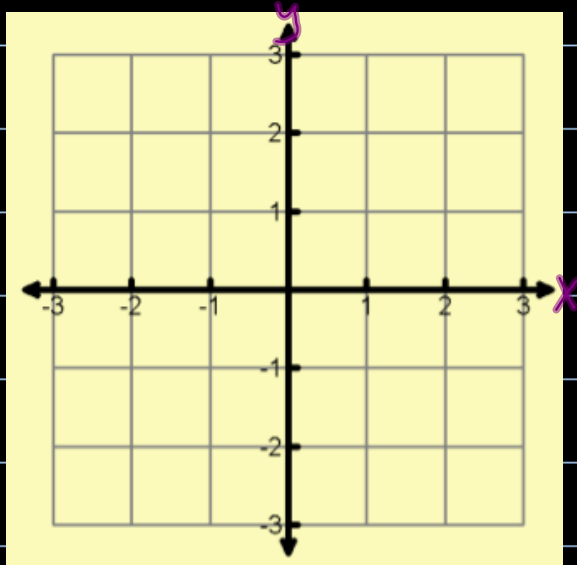

Today's Tip: Infinite Cloning

Today's Tip: Infinite Cloning

Plot these Points

X	Y
-2	3
2	0
1	-1

Today's Tutorial:

Using the screen capture in a lesson

$$\frac{3}{2}(x-6) = 3$$

$$\frac{3}{2}x - 9 = 3$$

+9 +9

$$\left(\frac{2}{3}\right) \frac{3}{2}x = 12 \left(\frac{2}{3}\right)$$

$$x = 8$$
